

City of Tacoma  
City Manager's Office

April 24, 2020

This communication is in reference to the City of Tacoma First Determination of Essential Construction ("Determination") during the COVID-19 Emergency issued on April 16<sup>th</sup>. That determination was issued in good faith based on the Governor's March 25<sup>th</sup> Proclamation, regarding essential construction and statements from the Governor's March 30<sup>th</sup> press conference concerning local enforcement.

Today, April 24, 2020, the Governor announced a restart of what he termed low-risk construction and has provided the attached guidance. This action by the Governor's Office fully supersedes the Tacoma Determination. Any questions regarding interpretation or implementation of the Governor's new direction should be addressed to the Governor's Office.

Sincerely,

A handwritten signature in blue ink, appearing to read "Elizabeth Pauli".

Elizabeth Pauli  
City Manager
